HUMAN CENTERED DIGITAL SOLUTIONS. TOGETHER

Boilerplate

S.I.E (System Industrie Electronic GmbH) is one of the market-leading development and manufacturing specialists for embedded systems and cyber-physical systems in challenging regulatory environments (medicine, industry, cyber security).

As a full-service provider, the company supports its customers throughout the entire product lifecycle, starting with creative ideation and consulting processes, through development and production, to quality and lifecycle services. Despite all digital DNA, the focus and common ambition of S.I.E, its customers and the entire partner network is to generate sustainable added value for people.

As part of its commitment to sustainable and responsible business practices, S.I.E has integrated the ten principles of the United Nations Global Compact into its strategies and business operations and is committed to respecting human and workers' rights, protecting the environment and fighting corruption in all its forms.

Logo & integration

The minimum free space around the logo is measured by the size of the letter „s".
See red square.
This minimum free space must be maintained at all times.
